

Worldwide Leader In Advanced Cleaning Systems

DAIMER[®]

INDUSTRIES

The **Revolutionary**
Super Max[®] Brand
Model 7000
Industrial Steam Pressure Washer

Daimer Industries is the proud provider of one of the most durable and high-performance lines of pressure washers in the industry today, namely the *Super Max*® series. We are pleased to offer our customers the pressure washer model that is ideal for most pressure washing cleaning tasks requiring high temperature. The Model 7000 is a system with the type of durability in steam pressure washers for which the factory has been well-known for over 30 years. Invest in Daimer and pressure washers that will yield years of satisfaction, durability, and reliability versus the short lifespan of those less expensive, lower-quality pressure washers sold in retail stores and elsewhere. Daimer's pressure washers are designed to last and last!

MODEL	Super Max 7000
Flow Rate - GPM (cold, hot or wet steam)	Up to 2.5 GPM
Pressure - PSI (cold, hot or wet steam)	1000 PSI
Temperature Range (hot high pressure)	180°F-210°F
Temperature (wet steam)	Up to 330°F
Voltage/Phase	110-120 V/1 Ph.
Motor Size	1.5 HP
Pump Type	Triplex Ceramic Plunger
Pump Drive Method	Direct Drive
Burner Type	Natural Draft
Fuel Type	Propane or Butane (LP Gas)
Ignition System	Electronic Direct Spark
Thermal Efficiency	80%+
Chemical System	Siphon-Type Injection
Heat Exchanger Coil	Stainless Steel
Wand	36" Stainless Steel w/Trigger Gun & 5 QD Nozzles
Wheels	10' Semi-Pneumatic
Fuel Tank Capacity	40 Lbs.
Paint Finish	Powder Coating
Width	23"
Depth	30"
Height	45"
Weight	250 lbs.
