

Coulson Ice Blast Ice Storm 45

The IceStorm45™ blasting machine is the most efficient and environmentally friendly industrial cleaning tool in the industry.

The design basis focused on simplicity, which translates through to the exterior, operational controls, and internal workings of the unit.

NEW FEATURES

Use Less Air

The IceStorm 45 uses half the CFM of the IceStorm90 and 90+ which means smaller compressors can be used.

Light Weight

Not only is the machine itself is more than half the weight, our nozzles and gun have had a redesign to reduce weight, making this a safer machine to operate.

Applications

The same uncompromised performance of the IceStorm 90+ tackling countless applications; lead paint abatement, asbestos removal, marine, graffiti, pulp & paper, food industry, fire & building restoration and many more.

UNCOMPROMISED PERFORMANCE

- ✓ Weight: 344 lbs
- ✓ Supply air conditions:
 - ✓ Air inlet pressure
 - Normal: 80 - 200 PSI
 - High pressure: 240 PSI
 - ✓ Volumetric flow rate:
 - Normal: 185 - 450 CFM
 - High Pressure: 750 CFM
 - ✓ Adjustable feed rate:
 - Wet ice: 0-5 lbs./Hr.
 - Dry ice: 2-5 lbs./Hr.
 - ✓ Non-pressurized hopper
 - Wet ice: 45 lbs.
 - Dry ice: 80 lbs.
